

Meritor Parts

Meritor Part - The Meritor Company is a premier global dealer established upon one hundred years of tradition of service and quality. Meritor focuses on integrated systems together with various modules and components to the original machine manufacturers and aftermarket equipment within the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and thinks that this energy contributes to their competitive advantage within the worldwide operations. The business values their customers and wants to ensure their success while anticipating their diverse requirements. Meritor begins with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred individuals, Meritor promotes collaboration and innovation amongst a team of experienced experts.

Meritor strongly believes in just employing future focused staff. These top-caliber people could rapidly adapt to changing surroundings and freely exhibit the level of commitment and performance necessary in order to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor provides their staff various possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, suspension and braking systems utilized for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of all their global engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group which is devoted to ensuring optimum progress at their production plants and aftermarket distribution facilities that are located on 5 continents and in 19 countries.

They have their supplier network which is particularly situated to support the development of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making within each and every part of the trade. The DFSS or also known as Design for Six Sigma ensures product reliability in each region. The team is even comprised of transactional Green Belts who use Six Sigma tools to business processes and apply lean methods.
