

Spreader Bars for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the largest independent spreader business all-around the world. They are a dedicated producer of spreaders meant for lots of several applications such as the handling of containers, swap bodies and trailers.

Engineering is done in house by using all of the latest CAD systems and FEM tools. The ELME business now employs over 125 workers. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-over the globe.

The ELME product series offers spreaders used for different container and trailer handling operations. Some of their inventory consist of: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes and a wide array of attachments.

Manufacturing and production of ELME products are developed in highly automated purpose built factory. In the year 2008, they created one thousand one hundred fifty spreaders by way of using quality parts in order to guarantee reliability and high standards. Major features of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
