

Clark Forklift Parts

Clark Forklift Parts - At present, there are over 350,000 Clark forklifts performing globally, and upwards of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 individual items fabricated for 20 distinctive designs of lift trucks and automated equipment. Your regional Clark Supplier is your total source for availability of all your components requirements offered by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Worldwide, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the material handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark has a unrelenting objective to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has preferred the extremely economical and beneficial system of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was established to acknowledge the most effective approaches of manufacturing facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the effectiveness and excellence of their products while minimizing costs. The new value engineering program combines progressive product development and offers superior consumer support and service within the industry.
