

## Concrete Hoppers

Concrete Hoppers - The self-dumping hopper attachment could automatically start to both dump and release as soon as the bumper release touches the side of a dumpster. When dumping is completed, the hopper is able to return to original locked and upright position. This piece of machinery also comes together with a cable that enables operation from the seat of the lift truck so as to have the option of manually unloading the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper likewise has a blue powder coat finish to be able to maintain durability.
